August 1999

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

PUBLIC 173

<u>Sponsor(s)</u> KILKELLY PIEH	<u>Committee Report</u> OTP-AM	<u>Amendments Adopted</u> S-102
---------------------------------------	-----------------------------------	------------------------------------

LD 1407 changes the restrictions for investment of the Spent Nuclear Fuel Disposal Trust Fund to encourage a greater return on investment of those funds and a corresponding reduction in the amount ratepayers will be charged for disposal of spent fuel. The proposed restriction is the standard permitted by the Federal Energy Regulatory Commission for decommissioning trust funds.

The bill also proposed to permit the Maine Yankee Nuclear Power Plant to draw funds earmarked for payment to the United States Department of Energy for disposal of spent fuel waste to offset past and future costs of on-site storage.

The bill proposed to provide for the transfer of funds collected for the disposal of low-level radioactive waste to the Maine Yankee Decommissioning Trust Fund for the purpose of reducing decommissioning costs.

Committee Amendment "A" (S-102) proposed to remove a limitation on payments from the Spent Nuclear Fuel Disposal Fund for funding expenditures for interim storage of spent nuclear fuel. The bill proposed to require payments for on-site interim storage expenditures; the amendment proposed to require payments for interim storage expenditures, regardless of whether the storage is on-site.

Enacted law summary

Public Law 1999, chapter 173 changes the restrictions for investment of the Spent Nuclear Fuel Disposal Trust Fund (to the standard permitted by the Federal Energy Regulatory Commission for decommissioning trust funds) to allow a greater return on investment of those funds and a corresponding reduction in the amount ratepayers will be charged for disposal of spent fuel. It also permits the Maine Yankee Nuclear Power Company to offset past and future costs of storage (whether on-site or not) with funds that were collected and set aside for payment to the United States Department of Energy for disposal of spent fuel waste. It also transfers to the Maine Yankee Decommissioning Trust Fund funds collected for the disposal of low-level radioactive waste.
