**FIRST REGULAR SESSION**

**Summary Of Legislation Before The Joint Standing and Select Committees**  
**August 1999**

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

computer system operated by the Director of the Bureau of Alcoholic Beverages and Lottery Operations. This computer system would provide continuous on-line monitoring of video gaming terminal activity. Persons under 21 years of age are not allowed to use the machines. Only members of the organization and their guests would be allowed to play, except that the organization may obtain a license to offer the machines for public use once every six months for a period of three consecutive days. The maximum dollar amount for each play would be \$2 and the maximum payout is \$1,000. Each game on each machine must return at least 90% of wagers to players, calculated on an annual basis with this proposal.

A single distributor would not be permitted to own more than 300 machines or 15% of the total number of machines in the State, whichever is less. A person may not hold more than one type of license; for example, a distributor may not also be a licensee or a manufacturer.

Net terminal income, which is income after payback to players, would be divided as follows: 33 1/3% to the State for payment into the Video Gaming Fund for administrative expenses, municipal revenue sharing and General Fund revenue; 33 1/3% to the distributor; and 33 1/3% to the licensee.

With this bill, licenses are issued for one year. Applicants for an initial license would pay the actual costs of processing the application and performing the background investigation.
