ONE HUNDRED NINETEENTH LEGISLATURE FIRST REGULAR SESSION

Summary Of Legislation Before The Joint Standing and Select Committees August 1999

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, <u>History and Final Disposition of Legislative Documents</u>, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

LD 1771 proposes a limit of \$250,000 on noneconomic damages in medical liability actions. The bill proposes that a plaintiff is still entitled to the full economic loss, including all medical expenses, rehabilitation services, custodial care, loss of earnings and earning capacity, loss of income and any other verifiable monetary losses.

This bill has been carried over to the Second Regular Session.

LD 1783

An Act to Clarify the Limited Liability for Recreational or Harvesting Activities

ONTP

Sponsor(s)	Committee Report	Amendments Adopted
MURRAY	ONTP	

LD 1783 proposed to specify that the limit on liability for recreational or harvesting activities does not apply to a person who has been invited onto the premises.

LD 1791 An Act to Promote Effective Management of Occupational Exposure to HIV

PUBLIC 429

Sponsor(s)	Committee Report		Amendments Adopted
GOLDTHWAIT	OTP-AM	MAJ	S-326
	OTP-AM	MIN	

LD 1791 proposed to expand the options for obtaining authorization to conduct an HIV test on a blood or tissue sample when an occupational exposure has occurred in a health care setting and the person who was the source of the blood or body fluid that caused the exposure is unavailable or unable to give consent, such as when the person is unconscious.

Committee Amendment "A" (S-326), the majority report of the committee, proposed to clarify when a source person is unavailable or unable to give consent to the test, specifies who may receive the test results and clarifies that, if the person contacted for authorization refuses to authorize a test, the test may not be performed without the source person's consent or judicial authorization.

The amendment also proposed to clarify that the law applies to volunteer emergency services personnel, including volunteer firefighters and licensed emergency medical services persons.

The amendment proposed to require the Department of Human Services, Bureau of Health, to study options for expanding the application of the law to other groups of employers and to report back to the Joint Standing Committee on Judiciary by December 31, 1999. The committee would be authorized to report out legislation in response to the report.

Committee Amendment "B" (S-327), the minority amendment of the committee proposed to expand the application to all places of employment subject to the Occupational Safety and Health Act regulation on blood-borne pathogens. A place of employment is subject to that OSHA standard if employees there are "reasonably anticipated" to come into contact with blood, other body fluids or other infectious material.

This amendment proposed to clarify when a patient is unavailable to give consent, specify who may receive the test results and clarify that if any person refuses to give authorization, the test may not be performed without judicial consent or the consent of the source patient. It also proposed to clarify that the law applies to exposures of volunteer emergency services personnel, including volunteer firefighters and licensed emergency medical services persons.
