ONE HUNDRED NINETEENTH LEGISLATURE
FIRST REGULAR SESSION

Summary Of Legislation Before The Joint Standing and Select Committees
August 1999

We are pleased to provide this summary of all bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

LD 2161 proposed to prohibit a telephone utility from charging a toll-call rate for a telephone call made from a municipality to a point in that same municipality.

LD 2164**An Act to Enhance Access to Technology for Maine Schools and Libraries**

PUBLIC 409

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DAVIDSON TREAT	OTP-AM	H-594

LD 2164 proposed to require that telecommunications carriers contribute to a telecommunications education access fund. The bill proposed to give the commission responsibility to administer the fund and allocate funds to qualified libraries and qualified schools based upon specific criteria.

This bill proposed to allocate funds to this new program from the current Public Utilities Commission Schools and Libraries Network program.

Committee Amendment "A" (H-594) proposed to lower the cap on the assessment from 1.5% of intrastate revenues to 0.5% of retail revenues for telecommunications services, excluding interstate tolls or interstate private line services. The amendment proposed to require the Public Utilities Commission to periodically review the assessments to ensure that they are assessed in a competitively neutral manner by capturing all 2-way interactive communications services comparable to those offered by telecommunications carriers.

This amendment proposed to remove the section from the bill which allocated moneys associated with the Public Utilities Commission's current Schools and Library Network Program to the program proposed by the bill. The amend proposed to delay the implementation of the new program until July 1, 2001, after the current Public Utilities Commission program regarding schools and libraries terminates.

The amendment proposed to require the commission to integrate the collection of charges for the program with any universal service fund developed by the commission. The amendment also proposed to require the commission to require carriers to identify on customer bills contributions to the program.

Enacted law summary

Public Law 1999, chapter 409 requires that telecommunications carriers contribute to a telecommunications education access fund. The law gives the commission responsibility to administer the fund and allocate funds to qualified libraries and qualified schools based upon specific criteria.

The assessment is limited to no more than 0.5% of retail revenues for telecommunications services, excluding interstate tolls or interstate private line services. The Public Utilities Commission is required periodically to review the assessments to ensure that they are assessed in a competitively neutral manner by capturing all 2-way interactive communications services comparable to those offered by telecommunications carriers.
