**Enacted Law Summary:**

Public Law 1999, chapter 752 expands the Maine Seed Capital Tax Credit Program for a limited period. For investments made after the effective date of the bill and prior to July 1, 2001, the amount of a tax credit certificates is increased from 30 % to 40% of an investment made in an eligible business or made in or unconditionally committed to a private venture capital fund provided the authority determines that the fund has a focus on investing in Maine companies. The remainder of the credit is available to the investors when the venture capital fund has made eligible investments. If the fund fails to make sufficient eligible investments within 3 years, the credit is revoked. The current law limit on aggregate tax credits that can be allocated to investments made by venture capital funds is combined with the limit on credits available for investment in businesses. Investors in a fund collectively are not entitled to a credit for any portion of ownership of a business in excess of 50%.

LD 2384 was a concept draft that proposed to authorize state and local governments to recapture the value of economic development incentives if the recipient failed to meet job and wage goals or moved out of state. The bill proposed a waiver of recapture provisions if the employer demonstrated that its failure to meet goals was caused by economic hardship. The bill also proposed to require that a business closing a plant offer the business for sale to employees or other public or private concerns. See also LDs 2390, 2460, 2501 and 2516.
