ONE HUNDRED NINETEENTH LEGISLATURE
SECOND REGULAR SESSION

Summary Of Legislation Before The Joint Standing Committees
July 2000

We are pleased to provide this summary of bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

<i>CON RES XXX</i>	<i>Chapter # of Constitutional Resolution passed by both Houses</i>
<i>CONF CMTE UNABLE TO AGREE</i>	<i>Committee of Conference unable to agree; bill died</i>
<i>DIED BETWEEN BODIES</i>	<i>House & Senate disagree; bill died</i>

LD 2446

An Act to Encourage Energy Efficiency in Government Facilities

PUBLIC 735

<u>Sponsor(s)</u> DAVIDSON		<u>Committee Report</u> OTP-AM		<u>Amendments Adopted</u> H-1098
-------------------------------	--	-----------------------------------	--	-------------------------------------

LD 2446 proposed to encourage the use of performance-based contracting to achieve energy efficiency in government facilities. The bill proposed to set a goal for governmental units of 25% reduction in energy consumption by 2010. The bill proposed to define the qualifications for an energy service company that may enter into a performance-based contract with a governmental unit and to establish terms of the contract. Governmental units would be required develop implementation plans for fulfilling the goals defined in this bill. Progress reports would be made every 2 years to the joint standing committee of the Legislature having jurisdiction over state and local government matters.

Committee Amendment "A" (H-1098) proposed to replace the bill. This amendment proposed to establish an energy savings goal for state-owned facilities and to require the Department of Administrative and Financial Services:

1. To develop a pilot energy savings project using performance-based contracts with energy service companies to achieve significant energy savings at 10 state facilities;
2. To report annually to the Joint Standing Committee on Utilities and Energy on the status of plans or efforts to achieve the energy savings goal and of the pilot energy savings project; and
