ONE HUNDRED NINETEENTH LEGISLATURE
SECOND REGULAR SESSION

Summary Of Legislation Before The Joint Standing Committees
July 2000

We are pleased to provide this summary of bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

The bill proposes the establishment of the Maine Council on Sustainable Forest Management with membership consisting of the Director of the Maine Forest Service, the Director of Baxter State Park’s scientific forestry management area and 7 members appointed by the Governor. LD 2596

**An Act to Revise the Law Protecting Farmers' Right to Farm and
to Provide for Nutrient Management Plans to be Confidential**

PUBLIC 723

<u>Sponsor(s)</u> PIEH		<u>Committee Report</u> OTP-AM		<u>Amendments Adopted</u> H-1069
---------------------------	--	-----------------------------------	--	-------------------------------------

LD 2596 proposed changes to the provisions in Maine nuisance law commonly referred to as the “Right-to-Farm Law”. Current law provides that a farm operation may not be considered a nuisance if the farm operation predates a change in land use or occupancy within one mile of its borders, or if the farm operation conforms to best management practices. This bill proposed specifying that a farm that makes a material change to its farm operation after the land use change within one mile must apply best management practices to receive the protections of the right-to-farm law.
