SECOND REGULAR SESSION**

**Summary Of Legislation Before The Joint Standing Committees  
July 2000**

We are pleased to provide this summary of bills that were considered by the Joint Standing and Select Committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing and select committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

Resolve 1999, chapter 94 was finally passed as an emergency measure effective March 29, 2000.

**LD 2601**

**An Act to Implement the Transportation Recommendations of the Task Force Created to Review Smart Growth Patterns of Development**

**ONTP**

<u>Sponsor(s)</u>		<u>Committee Report</u> ONTP		<u>Amendments Adopted</u>
-------------------	--	---------------------------------	--	---------------------------

LD 2601 proposed to implement the recommendations of the Task Force on State Office Building Location, Other State Growth-related Capital Investments and Patterns of Development that relate to transportation policy. The bill would have expanded the purposes of the access management law and clarified that the Department of Transportation is directed and municipalities are authorized to make rules that establish priorities that ensure avoidance, minimization and mitigation of the negative impacts of access on highway operations consistent with functional classifications.

The bill proposed to further clarify that no permit is needed for existing driveways unless grade or location or the use served by the driveway are changed and that the department and municipalities are required to deny access where access rights have been purchased by the department. Until rules become effective, the bill would have limited lots of record in existence on July 1, 2000 and having state highway frontage to one driveway, entrance or approach onto that state highway. The fine for violation of this law was increased from \$100 in total to \$100 per day per violation.

The bill would have required the Department of Transportation to work cooperatively with the State Planning Office and regional councils to provide training, technical assistance and information to municipalities on road planning, road maintenance, sidewalks and neighborhood involvement. The bill also would have required the department to begin a strategic planning process to address challenges such as administrative streamlining of transit funding; marketing and redesign of transit to appeal to a wider range of customers; innovative financing of transit projects; connectivity to airports and rail; and other issues. The department would have been required to present a status report to the Legislature on the strategic planning process. The bill also would have required the department to work with the Department of Human Services and the Department of Environmental Protection to identify funding sources for innovative transit and transportation projects that address sprawl and air quality issues.

The bill proposed to appropriate \$500,000 to the Department of Transportation, Bureau of Transportation Services to return the level of General Fund support for alternative transportation to 1980's levels, adjusted for inflation according to the Consumer Price Index.
