Summary Of Legislation Before The Joint Standing Committees
August 2001

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 229 proposed to direct the Department of Inland Fisheries and Wildlife to propose recommendations to encourage the harvest of coyotes. The committee would report out legislation to the Second Regular Session of the 120th Legislature.

Committee Amendment "A" (H-98) proposed to require the Department of Inland Fisheries and Wildlife to review its animal damage control program, in consultation with the department's regional coyote snaring steering committees, focusing on the deployment of trappers to snare coyotes in deer yards during winter months. The department would report back its findings and proposed plans to implement those findings to the Joint Standing Committee on Inland Fisheries and Wildlife by October 1, 2001. The department would implement its proposed plans during the 2001-02 winter in areas where predation by coyotes poses a threat to deer. The amendment also proposed to add a fiscal note to the bill.
