Summary Of Legislation Before The Joint Standing Committees
August 2001

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. Joint Standing Committee on Marine Resources

LD 345 proposed to amend the definition of shellfish to include scallop in any form other than the adductor muscle of a scallop. The purpose of the bill was to allow the emerging market for whole scallops to occur under shellfish sanitation regulations that protect the public health from shellfish contaminated by pollution or marine toxins.

Committee Amendment "A" (H-204) proposed to subject cultured whole scallops to the shellfish sanitation regulations and added a fiscal note to the bill.

LD 365 proposed to require the Commissioner of Marine Resources and the Commissioner of Inland Fisheries and Wildlife to ensure by May 1, 2001 that fishways on the Woodland Dam and the Grand Falls Dam, both located on the St. Croix River, were configured or operated in a manner that allowed the passage of alewives.

Committee Amendment "A" (H-433) proposed to remove the emergency provisions and require the Department of Marine Resources and the Department of Inland Fisheries and Wildlife to allow the passage of no more than 90,000 alewives annually at the Woodland Dam and Grand Falls Dam located on the St. Croix River by May 1, 2002. The amendment also proposed to require both departments to report back to the joint standing committee of the Legislature having jurisdiction over inland fisheries and wildlife matters and the joint standing committee of the Legislature having jurisdiction over marine resources matters on December 31, 2003 and every 2 years thereafter regarding the impact the additional alewives have on the upstream ecosystem and fisheries. The amendment proposed to grant the Commissioner of Marine Resources and the Commissioner of Inland Fisheries and Wildlife the authority to close the fishway by routine technical rulemaking if the commissioners determined that the fisheries in the St. Croix River were being adversely impacted by anadromous fish utilizing the fishways on the river.
