Summary Of Legislation Before The Joint Standing Committees
August 2001

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. Joint Standing Committee on Marine Resources

LD 502 proposed to create a right-to-fish law that is similar to Maine's right-to-farm law. It provided that a commercial fishing activity or commercial fishing operation was not a nuisance if the activity or operation predated a change in the land use or occupancy of land within one mile of the activity or operation or if the activity or operation conformed to appropriate environmental practices as determined by the Commissioner of Marine Resources. It proposed to direct the Commissioner of Marine Resources to investigate all complaints involving a commercial fishing activity or commercial fishing operation and to recommend changes to comply with appropriate environmental practices. It also provided that failure to apply appropriate environmental practices may have resulted in an action to abate a nuisance.

Committee Amendment "A" (S-68) replaced the original bill. It proposed to define "commercial fishing activity" and "commercial fishing operation" and it limited private nuisance actions against those activities and operations that are undertaken in compliance with licensing and permitting requirements and other applicable laws. It excluded finfish aquaculture activities from this protection. It also added a fiscal note to the bill.

Enacted law summary

Public Law 2001, chapter 99 defines "commercial fishing activity" and "commercial fishing operation" and it limits private nuisance actions against those activities and operations that are undertaken in compliance with licensing and permitting requirements and other applicable laws.
