Summary Of Legislation Before The Joint Standing Committees
August 2001

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

BODIES

BULL	ONTP MAJ OTP-AM MIN	

LD 1174 proposed permitting a person to possess hemp used for agricultural purposes beginning July 1, 2002. It proposed requiring the Department of Agriculture, Food and Rural Resources and the Department of Public Safety to examine the issue of legalizing the use of hemp for agricultural purposes and to report with implementing legislation that legalizes the use of hemp for agricultural purposes to the Second Regular Session of the 120th Legislature no later than January 1, 2002.

Committee Amendment "A" (H-310) proposed replacing the original bill. It was the minority report. It proposed enacting a definition of "industrial hemp" and authorizing the Director of the Maine Agricultural Experiment Station to obtain the appropriate federal permits to study the feasibility of growing industrial hemp. It proposed directing the Commissioner of Agriculture, Food and Rural Resources to write to federal agencies expressing support for research and appropriate regulation to allow the cultivation of industrial hemp if research indicated significant potential as an agricultural crop.
