Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

alternative methods and conducting appeals from decisions of the Department of Administrative and Financial Services, Bureau of General Services. The amendment proposed creation of the Alternative Delivery System Review Panel to advise the bureau on policy making and project selection. The amendment also clarified provisions of the bill regarding qualification of contractors to bid on public improvement projects. As proposed in the amendment, the Bureau of General Services would be permitted to require additional financial information from bidders and qualification to bid could be denied based on a contractor's safety record, material misrepresentation, suspension or default on another contract. It also added a fiscal note to the bill.

### *Enacted law summary*

Public Law 2001, chapter 271 amends the existing competitive-bid system of construction delivery for public construction projects (not including public schools, municipal and county government buildings and DOT projects) to allow alternative delivery methods. The bill permits the Bureau of General Services to use design-build, construction-manager-at-risk and construction-manager-advisor delivery methods. The bureau is also empowered to hire an owner's representative under the competitive bid or any of the alternative delivery methods. Chapter 271 establishes the process for selection of public improvement projects that may be considered for alternative methods of delivery and the requirements for requesting proposals, evaluating the qualifications of bidders and bids under the various alternative methods and conducting appeals from decisions of the Department of Administrative and Financial Services, Bureau of General Services. An Alternative Delivery System Review Panel is established to advise the bureau on policy making and project selection. The law also expands the requirements for prospective bidders to provide information in order to qualify to submit bids on public construction projects.
