The bill proposed to require the department to follow the same procedures in the case of deficiencies with respect to state law that are followed in the case of deficiencies with respect to federal law. In addition, it proposed to provide for a fair and objective review of determinations made by the Director of the Division of Licensure and Certification. It also proposed to require the direct involvement of the director in making recommendations to federal authorities with respect to the imposition of penalties. It also proposed to require the department to study the feasibility of an alternative regulatory scheme for fines and penalties. This bill proposed to direct the department to weigh the entire management record of a management entity and not just particular deficiency findings in the overall assessment of an applicant's fitness for a certificate of need.

The bill proposed to prevent the department from imposing on the facility the cost that should be borne by the resident of the facility, when that resident's obligation to pay for a portion of the cost of care changes due to change in circumstances that affects eligibility for coverage.
