**Summary Of Legislation Before The Joint Standing Committees  
August 2001**

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

## Joint Standing Committee on Health and Human Services

LD 1514 proposed to provide a fair and orderly process for resolving disputes that arise when the department's Division of Licensure and Certification inspects and finds deficiencies in nursing facilities. The bill proposed to require the department to follow the same procedures in the case of deficiencies with respect to state law that are followed in the case of deficiencies with respect to federal law. In addition, it proposed to provide for a fair and objective review of determinations made by the Director of the Division of Licensure and Certification. It also proposed to require the direct involvement of the director in making recommendations to federal authorities with respect to the imposition of penalties. It also proposed to require the department to study the feasibility of an alternative regulatory scheme for fines and penalties. This bill proposed to direct the department to weigh the entire management record of a management entity and not just particular deficiency findings in the overall assessment of an applicant's fitness for a certificate of need.

The bill proposed to prevent the department from imposing on the facility the cost that should be borne by the resident of the facility, when that resident's obligation to pay for a portion of the cost of care changes due to change in circumstances that affects eligibility for coverage.

This bill was carried over to the Second Regular Session of the 120<sup>th</sup> Legislature.
