LD 1678 proposed to amend the Constitution of Maine to establish the Legislative Compensation Commission to review the current levels of compensation provided to Maine Legislators. The constitutional resolution proposed that the 5 members of the commission – none of whom could be legislators, lobbyists or lobbyist employers at the time of the appointment -- be appointed by the Governor with at least one from each of the 2 major political parties. The resolution proposed that the commission's recommendations automatically take effect for the next legislative session unless the Legislature enacts legislation specifically overriding the commission's recommendations.

This resolution has been carried over to the Second Regular session of the 120th Legislature.

LD 1748 represents the recommendations of the Commission to Study Economically and Socially Just Policies for Foreign Investments and Foreign Purchasing by the State. This bill proposed to require suppliers of goods and services for the State to sign an affidavit that they have complied with the state purchasing code of conduct in order to be considered in the competitive bidding process. It would have required the State Purchasing Agent to provide resources to bidders to assist them with compliance with the code of conduct. The proposed code of conduct consisted of a statement of the State's belief in the importance of doing business with companies that follow economically and socially just practices, a list of required business practices and a list of required employment practices for suppliers. The bill proposed that the State Purchasing Agent adopt rules governing the award of bids and to report annually to the joint standing committee having jurisdiction over state and local government matters. It also proposed to amend the commission's implementing legislation to require the commission to meet in September and October 2002 to assess the implementation of its recommendations and to create a new commission to study and establish economically and socially just policies for foreign investment by the State.

Committee Amendment "A" (H-501) was the majority report of the Joint Standing Committee on State and Local Government. It proposed clarifications to the application of the state purchasing code of conduct established in the bill. As amended, the code would have covered purchases by the State Purchasing Agent on behalf of state agencies only for footwear, apparel and textiles valued at over \$2,500 under the state competitive bidding law. The amendment also proposed to revise the statement of belief that is the basis for the purchasing code and that is part of the affidavit required from bidders in the bill. The amended statement of belief would have more clearly stated to potential bidders on covered state contracts the harm to Maine businesses and workers caused by competition from
