**Summary Of Legislation Before The Joint Standing Committees**  
**August 2001**

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

## Joint Standing Committee on Transportation

3. Revise forestry and farm permit-by-rule provisions to clarify that only the minimum safe-sight standards apply to forestry and farm access. Clarify that the status of a proposed driveway or entrance access as being for forestry and farm activities will be determined by the primary use of the proposed driveway or entrance;
4. Clarify that the limit on the number of entrances per lot on arterials is one 2-way or 2 one-way entrances unless the department determines that more entrances would be safer. Provide an exception to this provision for forestry and farming activities;
5. Reduce and simplify the corner clearance provisions applicable to arterials to a minimum of 125 feet, which can be waived for driveways. Clarify that the department may require greater corner clearance if the department determines it is necessary to prevent a significant impact on public safety or a reduction in the posted speed limit; and
6. Simplify the shared-access provisions to clarify the conditions for landowner compliance.
