120th Legislature Second Regular Session

Summary Of Legislation Before The Joint Standing Committees May 2002

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, <u>History and Final Disposition of Legislative Documents</u>, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 1838 An Act to Eliminate Unnecessary Filing Requirements for Water PUBLIC 488 Utilities

Sponsor(s)	Committee Report	Amendments Adopted
SAVAGE W	OTP-AM	H-765

LD 1838 proposed to remove the requirement that, in addition to filing plans for the construction of a water system, a water utility must file with the Public Utilities Commission and with the Department of Human Services engineering estimates, all costs, and a justification of the construction project and of its next best alternative. The bill proposed to remove the requirement that the information be made available for public review but to retain the requirement that the public be notified if expenses exceed a specified level.

Under current law a water utility must provide special notice to customers if it proposes to incur expenditures over a certain amount as a result of the requirements of the federal Safe Drinking Water Act. Under the bill a water utility would be required to provide such notice anytime it proposed to incur such expenditures, whether or not those expenses would be incurred as a result of the federal Safe Drinking Water Act.

Committee Amendment ''A'' (H-765) proposed to change the public notice portion of the bill back to the current law so that notice would only required when a water utility incurs such expenditures as a result of the federal Safe Drinking Water Act.

Enacted law summary

Public Law 2001, chapter 488 removes the requirement that a water utility that, as a result of the requirements of the federal Safe Drinking Water Act, will incur expenses in excess in excess of 50% of its annual operating revenue file with the Public Utilities Commission and with the Department of Human Services engineering estimates, all costs, and a justification of the construction project and of the utility's next best alternative. The law also removes the requirement that this information be made available for public review; it retains the requirement that the public be notified if such expenses will be incurred.
