**120th Legislature**  
**Second Regular Session**

**Summary Of Legislation Before The Joint Standing Committees**  
**May 2002**

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla](http://www.state.me.us/legis/opla)).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

## Joint Standing Committee on Natural Resources

The law also directs the Board of Environmental Protection to adopt major substantive rules that establish water use standards for maintaining in-stream flows and GPA water levels that are protective of aquatic life and other uses and that establish criteria for designating watersheds most at risk from cumulative water use. Water use standards must be based on the natural variation of flows and water levels and must allow for variances if use will still be protective of water quality within that classification. Those rules must be provisionally adopted by January 1, 2005 and submitted to the joint standing committee of the Legislature having jurisdiction over natural resources matters in the First Regular Session of the 122nd Legislature.

### **LD 1643**                      **An Act to Provide Criteria for the Municipal Use of Rate of Growth Ordinances**                      **ONTP**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DAIGLE MARTIN	ONTP	

LD 1643, which was carried over from the First Regular Session, proposed to outline the parameters within which a municipality could adopt a growth rate ordinance. Temporary growth rate ordinances could be enacted only to slow development while a community worked toward solving the problems necessitating the growth rate ordinance. A permanent growth rate ordinance could be enacted only as part of an integrated growth management strategy and also could be used in designated rural areas as a mechanism to guide growth within a community. The bill also proposed to clarify that a municipality with a comprehensive plan could implement a growth rate ordinance in its rural area only.

### **LD 1849**                      **An Act Regarding the Deferment of Loan Repayments for Remediation of Waste Oil Sites**                      **PUBLIC 561**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
