120th Legislature Second Regular Session

Summary Of Legislation Before The Joint Standing Committees May 2002

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

Joint Standing Committee on Health and Human Services

and to assist in developing additional recommendations that will increase lead screening in Maine. The amendment proposed to require the department to report by January 1, 2004 on the initial work of the task force to the joint standing committee of the Legislature having jurisdiction over health and human services matters. The amendment proposed to add an effective date of January 1, 2003, an appropriation and a fiscal note to the bill.

Enacted law summary

Public Law 2001, chapter 683 requires the Department of Human Services to distribute information on lead poisoning and to develop and distribute a lead poisoning risk assessment tool. Primary health care providers for children are required to test for blood lead levels in all children one year of age and 2 years of age who are covered by the MaineCare program and to test all children one year of age and 2 years of age unless, in the professional judgment of the attending physician, the child's level of risk does not warrant a blood lead level test. The law requires the Department of Human Services to convene a task force of representatives of pertinent health care organizations to determine a standard lead poisoning risk assessment tool for use statewide, to help disseminate the assessment tool and information on lead poisoning and to assist in developing additional recommendations that will increase lead screening in Maine. The department must report to the joint standing committee of the Legislature having jurisdiction over health and human services matters by January 1, 2004 on the initial work of the task force and by March 1, 2005 on the results of the lead poisoning risk assessment and blood lead level testing.

Public Law 2001, chapter 683 has an effective date of January 1, 2003.

Amendments Adopted

LD 2045 proposed to provide that the Department of Labor, Bureau of Rehabilitation Services is the lead agency for providing consumer-directed personal assistance services to citizens of this State with disabilities. The bureau would administer state-funded and Medicaid-funded, consumer-directed personal assistance services programs for people with disabilities and ensure that these services are delivered in the most comprehensive manner possible. See Public Law 2001, chapter 559, part BB for these provisions.
