Joint Standing Committee on Natural Resources

Public Law 2001, chapter 695 expands the Clean Government Initiative to apply to the University of Maine System, the Maine Maritime Academy and the Maine Technical College System. Under current law, the Clean Government Initiative assists state agencies in meeting applicable environmental compliance requirements and incorporating environmentally sustainable practices into state government functions. The law also requires the state-supported institutions of higher learning to utilize existing budgeted resources to meet the requirements of the initiative, except that the University of Maine System is not expected to expend more than \$300,000 of its existing budgeted resources to meet the provisions regarding auditing for compliance with state and federal environmental laws. Additional funds needed to comply with those audit provisions, in excess of the first \$300,000 of existing budgeted resources, must be requested by the Chancellor of the University of Maine System in the biennial report of the directors of the initiative.
