Summary Of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing and joint select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla/billsumm.htm).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

GERZOFSKY	ONTP MAJ	
EDMONDS	OTP-AM MIN	

LD 222, which was carried forward from the First Regular Session, proposed to subject basic tier service rates and services of cable systems to regulation by the Public Utilities Commission. The bill also proposed to establish hearing and complaint procedures for rate increases or product or service changes by a cable system operator and direct the commission, on petition of 25 or more customers, to petition the Federal Communications Commission to address any increases or changes that the commission finds to be unreasonable.

Committee Amendment "A" (H-670) was the minority report of the Joint Standing Committee on Utilities and Energy. The amendment proposed to add an appropriations and allocations section to the bill.

LD 547

An Act To Increase Bill Reductions for Electricity Customers in Maine

ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HALL	ONTP MAJ

LD 547

Current law provides for the exercise of some discretion by the Public Utilities Commission in setting assessment rates for funding electricity conservation programs for Maine's electricity customers. The PUC can set the assessment no lower than .5% of a transmission and distribution utility's total revenues and no higher than .15 cents per kilowatt hour. LD 547, which was carried forward from the First Regular Session, proposed to establish a single rate, .25 cent per kilowatt-hour, for all investor-owned transmission and distribution utilities in the State while leaving with the commission discretion for setting an assessment rate for consumer-owned utilities.

LD 639

An Act To Ensure Accurate Electric Rates for the Ski Industry

ONTP

LD 639, which was carried forward from the First Regular Session, proposed to require the Public Utilities Commission to establish rates for transmission and distribution utility service to ski areas for lift operation and snowmaking that accurately reflect the winter and summer peaks in use of transmission and distribution utilities.
