*Summary Of Legislation Before The Joint Standing Committees*

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing and joint select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet ([www.state.me.us/legis/opla/billsumm.htm](http://www.state.me.us/legis/opla/billsumm.htm)).

LD 1921 proposed to increase efficiencies, improve equity in delivering educational services and alleviate increasing costs while maintaining the quality of public education from kindergarten to grade 12. This bill proposed to encourage regional delivery of educational services and school administration through voluntary formation of regional school districts and regional cooperatives and the provision of assistance by efficient school units to school administrative units seeking to reduce their education costs. Under the proposed bill, the State would provide monetary incentives for school units choosing to participate in these efforts.

None of the following amendments were adopted:

**Committee Amendment "A" (H-888)** was the majority report of the committee and proposed to replace the bill. It proposed to amend the certification criteria and performance review criteria for regional school districts, regional cooperatives and consulting school units. It also proposed to amend the financial incentives available to regional school districts, regional cooperatives and consulting school units. The amendment proposed to direct the Commissioner of Education to report to the Legislature on the efficacy of the financial incentives available under the law and to recommend statutory changes that may be needed to encourage efficiencies in delivering education services. Finally, it proposed to direct the State Board of Education to develop rules to permit applications for major school construction projects made jointly by 2 or more school administrative units. This amendment also proposed to add an appropriations and allocations section.

**House Amendment "A" to Committee Amendment "A" (H-905)** proposed to clarify that the final certification and approval process include bargaining units of employees of the school administrative units and that wages, hours and other conditions of employment are considered when making an agreement.

**House Amendment "B" to Committee Amendment "A" (H-939)** proposed to require that, prior to approval as a regional cooperative, the school administrative units to be combined to form the regional cooperative have each approved an agreement that addresses continuity of employment and employment benefits and rights of all
