121st Maine Legislature First Regular Session

Summary Of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing and joint select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

The implementation of the programs has been delayed pending the outcome of the appeal to the United States Supreme Court regarding the Maine Rx Program.

Committee Amendment "A" (H-447) proposed to begin the discounts under the Maine Rx Program April 1, 2004 and extend the other dates in that program and the Prescription Drug Access Price Reduction Act correspondingly.

MARTIN	ONTP	

LD 1260 proposed to provide that an individual who held a power of attorney, served as a guardian or conservator or otherwise served as a personal representative of a resident of a nursing facility, assisted living facility, residential care facility or related facility had a fiduciary duty with respect to that individual's actions on behalf of that resident. Such an individual would apply the available resources of the resident to make timely payment for services rendered by a licensed health care facility to the resident and work to secure available coverage, including coverage from the Medicare and MaineCare programs.

LD 1260 also proposed to require the Department of Human Services, to the extent reasonably practicable, to determine on a prospective basis the MaineCare cost of care of an individual MaineCare recipient residing in a nursing facility or other health care institution and make monthly prospective MaineCare payments to the health care institution. It proposed to provide that the department could not retroactively reduce the amount of the MaineCare payment to a nursing facility or other health care institution unless the individual MaineCare recipient or the recipient's responsible party had paid to the nursing facility or other health care institution the additional amount for which the department had determined the individual MaineCare recipient was responsible.
