121st Maine Legislature First Regular Session

Summary Of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing and joint select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

<i>CARRIED OVER PURSUANT TO HP 1212</i>	<i>Bills carried over to the 2nd Regular Session</i>

Joint Standing Committee on Utilities and Energy

LD 1252

An Act To Authorize Water and Wastewater Districts To Lease Their Assets

PUBLIC 267

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MCLAUGHLIN MAYO	OTP-AM MAJ ONTP MIN	H-316

LD 1252 proposed to provide that a consumer-owned water or wastewater district may enter into lease and leaseback or sale and leaseback transactions and to provide certain property tax exemptions for property subject to such transactions.

Committee Amendment "A" (H-316), which was the majority report of the Joint Standing Committee on Utilities and Energy, proposed to replace the bill. It proposed to remove references to property tax exemptions, eliminate references to sale and leaseback transactions, limit leaseback transactions to property other than land and define leases to include leases of any length, including leases that may be defined as sales for income tax purposes.

Enacted Law Summary

Public Law 2003, chapter 267 provides that a consumer-owned water or wastewater district may enter into lease and leaseback transactions with respect to property other than land. It also defines leases to include leases of any length, including leases that may be defined as sales for income tax purposes.

LD 1261

An Act To Support Clean and Efficient Energy for the Future of Maine's Economy and Environment

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
TREAT BLISS		

LD 1261 proposed to:

1. Establish minimum energy efficiency standards for certain products, such as ceiling fans, illuminated exit signs, traffic signal lights and digital cable television boxes. The bill proposed that, beginning January 1, 2005, the sale of a product that does not meet the energy efficiency standards would be prohibited and, beginning January 1, 2006, installation of such a product would be prohibited. (This portion of the bill is substantively identical to the provisions of LD 1187);
2. Increase the assessment imposed by the Public Utilities Commission on transmission and distribution utilities to 0.2¢ per kilowatt-hour to fund energy conservation programs;
3. Impose an additional assessment on transmission and distribution utilities of 0.1¢ per kilowatt-hour to fund a Clean Energy Fund in the Public Utilities Commission to encourage the development, construction and operation of new renewable energy resources projects, defined as electrical generation powered by fuel cells using renewable fuels; tidal, ocean or wave power; solar arrays and installations; wind power; and geothermal power. (See LD 1312);
