Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

LD 1337 proposed to create the position of "public safety official" and authorize this position to control traffic in emergency situations. It also proposed to provide that failure to comply with the directions of a public safety official commits a traffic infraction for which the registered owner of the vehicle is responsible unless proven otherwise.

Committee Amendment "A" (S-167) proposed to replace the bill and would authorize municipal and volunteer firefighters and emergency medical services personnel to direct traffic at or reroute traffic around an emergency scene or training operation if the firefighters or emergency medical service personnel are trained in traffic direction and designated as public safety traffic flaggers by the chief official of the fire department or the emergency medical service. It also proposed to create 2 new traffic infractions, one for the operator failing to obey a public safety traffic flagger and the other for the registered owner of a vehicle involved in such an incident.

Enacted law summary

Public Law 2005, chapter 167 authorizes municipal and volunteer firefighters and emergency medical services personnel to direct traffic at or reroute traffic around an emergency scene or training operation if the firefighters or emergency medical service personnel are trained in traffic direction and designated as public safety traffic flaggers by the chief official of the fire department or the emergency medical service. The law also creates 2 new traffic infractions, one for the operator failing to obey a public safety traffic flagger and the other for the registered owner of a vehicle involved in such an incident.
