First Regular Session and First Special Session

Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Amendments Adopted

LD 1457 proposed to direct the Board of Education to convene a task force to review the special education system and to develop a proposal to phase it out and replace it with a new system under which every student, not just special education students, would receive an individual learning plan and eligible children under 9 years of age who are experiencing developmental delays are ensured a free appropriate public education. The department would have been required to invite interested parties and stakeholders to serve as members of the task force.

Amendments Adopted

LD 1469 proposed to establish a merit-based scholarship program for eligible students who graduate from high school in Maine and who are admitted to one of the institutions of the University of Maine System or the Maine Community College System. Students must have graduated in the top 10% of their classes in high school and family income must be less than \$70,000 a year. The scholarships would have been for the full or partial cost of tuition less any financial aid, awards or grants that reduced the level of tuition. Students would have been required to retain a 3.0 grade point average in college in order to remain in the program. This merit-based scholarship program would have been administered by the Finance Authority of Maine. The Finance Authority of Maine, which would have been given routine technical rule-making authority, could have adjusted these eligibility requirements to control expenditures or increase participation in the program.
