Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

Joint Standing Committee on Health and Human Services

The law designates more than 9 grams of a targeted methamphetamine precursor possessed by a person as a Schedule Z illegal drug and provides an affirmative defense if it is possessed for a legitimate medical purpose. The law requires the Department of Health and Human Services, Office of Substance Abuse to create the Maine Meth Watch Program, based on a national so-called "Meth Watch" program, which helps deter suspicious sales and theft of targeted methamphetamine precursor-containing medicines and other products used in the illegal manufacturing of methamphetamine.

The law authorizes the Director of the Office of Substance Abuse in the Department of Health and Human Services to adopt major substantive rules on further restrictions for the liquid or gel forms of targeted methamphetamine precursors, on mandatory identification and on requiring a purchase log if the Director of the Maine Drug Enforcement Agency finds circumstances that pose a threat to the public health, safety and welfare and the Director of the Office of Substance Abuse has consulted with the joint standing committee of the Legislature having jurisdiction over health and human services matters.
