First Regular Session and First Special Session

Summary of Legislation Considered by the Joint Standing Committees
August 2005

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing select committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is organized by committees and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. A subject index for each committee is included immediately before the bill summaries for that committee, and a numerical index by LD number is included at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla).

HOBBS				

LD 1675 proposed to create an exception for rural telephone companies from the law governing the establishment of alternative forms of regulation (AFOR). It proposed to require the Public Utilities Commission to adopt any AFOR proposed by a rural telephone company if

1. The term of the AFOR is 5 or more years;
2. The AFOR allows the telephone company to establish rates without PUC review, provided the company's local basic rates do not exceed comparable Verizon's rates (if the company has lower basic rates before the AFOR, it would be permitted to increase its rates to the level of Verizon's; the AFOR would also be required to allow the company to increase local rates above Verizon's rates as necessary to offset exogenous events);
3. The AFOR allows the telephone company to choose to continue to receive universal service funds to meet its revenue requirement in the same amount as it received before the AFOR, subject to adjustment equal to the
