122nd Maine Legislature Second Regular Session

Summary of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla/billsumm.htm).

Amendments Adopted

LD 1721 proposed to direct the Department of Corrections, in cooperation with the Department of Health and Human Services, the judiciary branch and other interested parties, to develop a plan to create a forensic board to periodically review the safety of releasing persons convicted of certain sex offenses after those persons have served at least a minimum number of years of imprisonment. LD 1721 proposed that the Department of Corrections would recommend persons to serve on the forensic board and would recommend processes for the board to employ, including the use of recognized risk assessment tools and other measurements and standards, to determine whether a person would be appropriately released and under what conditions or to determine that the person must continue to remain incarcerated until the next forensic review. In addition to making recommendations regarding the development of a forensic board, the bill proposed that the Department of Corrections would identify the types of treatment that persons convicted of sex offenses receive while incarcerated and any data measuring the success and failure of such treatments. The bill proposed to direct the Department of Corrections to report its findings and recommendations, including proposed legislation to implement a forensic board, to the joint standing committee of the Legislature having jurisdiction over criminal justice and public safety matters by December 30, 2006.
