122nd Maine Legislature Second Regular Session

Summary of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla/billsumm.htm).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

Joint Standing Committee on Appropriations and Financial Affairs

1. The bill clarifies the definition of “baseline General Fund revenue” and the treatment of education funding increases until the state share of education funding reaches 55%.
2. It provides consistency in the use of the term “appropriation limitation.”
3. It corrects language describing the transfer of amounts to reserve accounts.
4. It corrects several references to the calculation of county and municipal limitations by specifying that adjustments are calculated by multiplying the prior year's limit by one plus the growth limitation factor (see note below).
5. It establishes the Director of the State Planning Office within the Executive Department as the person determining “average real personal income growth” and the annual date for that determination for purposes of determining various limitations.
6. It clarifies that municipal limitations do not need to be adjusted for changes in state reimbursement under the Urban-Rural Initiative Program if the change is the result of operation of the statutory formulas under that program.

(Note: 2 references to the calculation of county and municipal limitations specifying that adjustments are calculated by multiplying the prior year's limit by one plus the growth limitation factor were inadvertently omitted in the Committee Amendment. LD 2055, PL 2005, c. 683, Part I, An Act To Correct Errors and Inconsistencies in the Laws of Maine, corrects the omissions.)
