122nd Maine Legislature Second Regular Session

Summary of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla/billsumm.htm).

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

Joint Standing Committee on Business, Research and Economic Development

LD 1923

An Act To Maintain Standards for the Plumbing Profession

PUBLIC 520

<u>Sponsor(s)</u> EDMONDS		<u>Committee Report</u> OTP-AM		<u>Amendments Adopted</u> S-496
------------------------------	--	-----------------------------------	--	------------------------------------

LD 1923 proposed to increase from 2,000 to 4,000 the required number of hours of work for persons who have completed college instruction in plumbing. Current law requires 4,000 hours of work in the field of plumbing installations for issuance of a journeyman plumber or limited plumber license to a person who is a licensed trainee plumber, but only 2,000 hours for a person who has satisfactorily completed one academic year of instruction in plumbing at a board-approved technical college or community college.

Committee Amendment "A" (S-496) proposed to retain the 2,000 required hours of work for a person who has completed one academic year of instruction in plumbing and adds the option of completion of a registered Department of Labor joint apprenticeship program to satisfy the requirement for a journeyman-in-training license.

Enacted law summary

Public Law 2005, chapter 520 amends the laws relating to the plumbing profession to allow the option of completion of a registered Department of Labor joint apprenticeship program to satisfy the requirement for a journeyman-in-training license.

LD 1933

An Act To Maintain Standards for Consumers of Mechanical Services

ONTP

<u>Sponsor(s)</u> EDMONDS		<u>Committee Report</u> ONTP		<u>Amendments Adopted</u>
------------------------------	--	---------------------------------	--	---------------------------

LD 1933 proposed to establish the Heating, Cooling and Air Distribution Board within the Department of Professional and Financial Regulation and proposed to establish the powers and duties of the board, including the adoption of rules and standards governing the installation, alteration and repair of heating, cooling and air distribution equipment and enforcement of those rules and standards. The bill also proposed to create a licensing system for master, journeyman and apprentice heating, cooling and air distribution technicians.
