122nd Maine Legislature Second Regular Session

Summary of Legislation Before The Joint Standing Committees

Enclosed please find a summary of all bills, resolves, joint study orders, joint resolutions and Constitutional resolutions that were considered by the joint standing committees of the Maine Legislature this past session. The document is a compilation of bill summaries which describe each bill and relevant amendments, as well as the final action taken. Also included are statistical summaries of bill activity this session for the Legislature and each of its joint standing committees.

The document is organized for convenient reference to information on bills considered by the committees. It is arranged alphabetically by committee name and within committees by bill (LD) number. The committee report(s), prime sponsor for each bill and the lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are listed by paper number. Two indices, a subject index and a numerical index by LD number are provided for easy reference to bills. They are located at the back of the document. A separate publication, History and Final Disposition of Legislative Documents, may also be helpful in providing information on the disposition of bills. These bill summaries also are available at the Law and Legislative Reference Library and on the Internet (www.state.me.us/legis/opla/billsumm.htm).

LD 1998 **An Act To Grandfather Owners of Property with Respect To Highway Cuts** **ONTP**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
JACKSON MARTIN	ONTP	

LD 1998 proposed to exempt land that was owned by a person prior to July 30, 2004 from the law that requires the Department of Transportation to limit the number, spacing, design, location and construction of driveways, entrances or approaches.

LD 2040 **Resolve, Directing the Department of Transportation To Review Its Highway Traffic Noise Policy** **RESOLVE 216**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
GLYNN BROMLEY	OTP-AM	H-857

LD 2040 proposed to direct the Department of Transportation to amend the policy to expand eligibility to affected properties that do not immediately abut the highway project but that, as a result of the highway project, approach or exceed the relevant noise abatement criteria. Under the existing statewide noise policy adopted by the Department of Transportation, a property must abut a highway project in order to be eligible for a noise abatement program.

In addition, the existing statewide noise policy imposes an abatement cost limit of \$20,000 per affected property. This resolve proposed to require that the cost limit be adjusted by a factor that represents the annual inflation adjustment for each year since the statewide noise policy was adopted and directs that the amount thereafter be adjusted annually for inflation.

Committee Amendment "A" (H-857) proposed to direct the Department of Transportation to undertake a comprehensive review of the department's current highway traffic noise policy. Under the existing statewide highway traffic noise policy adopted by the Department of Transportation, a property must abut a highway project in order to be eligible for a noise abatement program.

The amendment also proposed to provide that if the department adopts a revised highway traffic noise policy, the scheduled improvement of Interstate 295 in South Portland and Portland is subject to the revised policy.
