123RD LEGISLATURE

FIRST REGULAR SESSION

LEGISLATIVE DIGEST OF BILL SUMMARIES AND ENACTED LAWS

This *Legislative Digest of Bill Summaries and Enacted Laws* summarizes all bills and adopted amendments and all laws enacted or finally passed during the First Regular Session of the 123rd Maine Legislature, which was in session from December 6, 2006 to June 21, 2007.

The *Digest* is arranged alphabetically by committee, and within each committee by LD number. The committee report(s), prime sponsor and lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are summarized and listed by paper number. A subject index is included with each committee. The appendices include a summary of relevant session statistics, an index of all bills by LD number and an index of enacted laws by law type and chapter number.

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

Joint Standing Committee on Health and Human Services

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to amend current law to establish an electronic prescription drug monitoring system to enhance patient safety by providing a means to avoid medication errors. The electronic prescription drug monitoring system will allow pharmacists, physicians and other authorized health care providers to obtain a complete record of all drugs prescribed to a patient, identify the prescribing physician for each drug and list the dates on which each prescription was filled. This information will give health care providers additional means to ensure that patients do not have adverse reactions due to incompatible drug interactions or over-prescription of medications from multiple prescribing physicians.

The bill proposes to direct the Department of Health and Human Services to apply for federal funds and seek other funding sources to develop the electronic prescription drug monitoring system.

This bill also proposes to amend current law to prevent the unauthorized collection, use, sale or exchange of confidential patient prescription drug information for commercial use, financial gain or other unauthorized purposes and to levy penalties that are stringent enough to deter these activities.

Amendments Adopted

This bill directs the Department of Health and Human Services to amend the rules for MaineCare reimbursement to pharmacies for prescription drugs in order to increase the dispensing fee on a basis that is indexed to the Consumer Price Index and to provide other increases in reimbursement. The rules adopted are designated as routine technical rules.

This bill was carried over to any special or regular session of the 123rd Legislature by Joint Order, HP 1369.

Amendments Adopted

This bill requires a female child entering grade 6 for the first time to be immunized against the human papillomavirus, the virus that causes cervical cancer. This requirement takes effect with the start of the 2008-2009 school year. The bill provides an exemption from this requirement for a child whose parent states in writing that the parent has received information provided by the Department of Health and Human Services regarding cervical cancer and the human papillomavirus and has chosen for the child not to receive the human papillomavirus vaccine. The bill requires that the department identify that information by January 1, 2008, make it available to family physicians, pediatricians and public and private schools that serve grade 6 and post the material on the department's publicly accessible website.
