LD 897 An Act Relating to Trains and Train Service in the State ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MITCHELL	ONTP	

This bill, a concept draft pursuant to Joint Rule 208, proposes emergency legislation to implement the recommendations of a statewide working group that was established at the request of the Joint Standing Committee on Transportation during the Second Regular Session of the 122nd Legislature to explore the issue of noise and air pollution attributed to train engines idling for long periods of time in various communities. Specifically, the bill proposes to encourage rail operators to install and use idling reduction technologies whenever possible and to assist rail operators in investigating all funding sources available to reduce the cost of their installation. Under the bill, the Department of Transportation and the Department of Environmental Protection will work together to identify and apply through the Northeast Diesel Collaborative and other sources for funding to assist in the installation of idling reduction technologies through matching grants or loans to the railroads.
