This bill strengthens the laws concerning submerged motor vehicles, snowmobiles and motorboats by requiring them to be removed within 48 hours of submersion instead of 30 days, as in current law, safety and weather conditions permitting, and making an owner strictly liable for any removal or clean-up costs if the owner refuses or fails to remove the motor vehicle, snowmobile or motorboat within the time directed. This bill increases the penalty for a submerged motor vehicle, snowmobile or motorboat from \$200 to \$500 for each day the motor vehicle, snowmobile or motorboat is unlawfully submerged.

**LD 1053      An Act To Amend the Laws Governing the Placement of an On-premises Sign**

**ACCEPTED ONTP  
REPORT**

Under current law, an on-premises sign must be located within 1,000 feet of the principal building where the business is carried on. This bill amends the law to allow on-premises signs within 1,000 feet of the location where the business is carried on and explicitly recognizes that storage areas, parking lots, warehouses and other auxiliary structures are considered locations where the business is carried on.

**Committee Amendment "A" (H-350)**

This amendment, which is the minority report of the Joint Standing Committee on Transportation, replaces the bill but preserves the essential purpose of the bill to allow on-premises signs at locations beyond 1,000 feet of the principal building where a business, facility or point of interest is carried on or practiced.

The amendment provides that on-premises signs must be located within 1,000 feet of the location of the business, facility or point of interest. The location of the business, facility or point of interest includes the buildings, parking lots, storage and processing areas or other structures or features that are essential and customary to the conduct of the business, facility or point of interest but does not include driveways, fences or similar features.

The amendment also provides that current restrictions regarding on-premises signs located adjacent to the interstate system are based on whether the sign is located within or beyond 50 feet of the location of the business, facility or point of interest rather than within or beyond 50 feet of the principal structure of the business, facility or point of interest.

Under the amendment, all on-premises signs must be located on land that is owned by the entity owning the business, facility or point of interest and contiguous to the location of the business, facility or point of interest. An on-premises sign may not be separated from the location of the business, facility or point of interest by a
