amendment also adds an appropriations and allocations section.

### House Amendment "A" (H-620)

This amendment incorporates changes made to the Maine Revised Statutes, Title 34-B, section 3864, subsection 4 by a recently chaptered law in order to prevent a conflict.

### Enacted Law Summary

Public Law 2007, chapter 446 adds to the court procedure for involuntary commitment the option of a request for involuntary treatment. The law amends the law on rules adopted by the Department of Health and Human Services regarding standards for treatment of a client absent informed consent. The law requires the department to amend those rules to include a clinical review and decision within 4 days of a request by the primary treating physician by a clinical review panel, to specify that orders for involuntary treatment are for the term of commitment and pending any appeal where appropriate and to require the offer of the assistance of a lay advisor and to amend the rules regarding the rights of recipients of mental health services. The rules, which are designated routine technical rules, must be adopted by January 1, 2008 for use beginning on that date. The law provides an effective date of January 1, 2008, except that rulemaking begins prior to that date.

**PUBLIC 237

MILLS P	OTP-AM	S-126

This bill requires the Department of Health and Human Services to adopt nonemergency major substantive rules for rate setting for providers of mental retardation community services. The bill requires the department, in implementing the pilot program and subsequent rate setting for all providers under the mental retardation waiver, to establish methodology that includes resource allocation plans based on uniform standards for assessing the service needs of each person receiving services, adjustments for regional housing cost variations, employee-related expenses, operation expenses and transportation costs. It requires the department to adopt nonemergency major substantive rules for implementing managed behavioral health care services.

**Committee Amendment "A" (S-126)**

The amendment changes the title and removes the section pertaining to a methodology for provider rate setting under the mental retardation waiver as well as the section pertaining to rulemaking for managed behavioral health care services. It retains the section that requires the rules for the standardization of rates for providers of care to persons with mental retardation under the waiver to be major substantive rules and adds an emergency preamble and clause. The amendment removes from the bill the restriction that major substantive rules adopted by the Department of Health and Human Services with regard to rate setting for providers of services to persons with mental retardation be nonemergency rules and authorizes the Department of Health and Human Services to adopt major substantive rules on an emergency basis during calendar year 2007.

**Enacted Law Summary**

Public Law 2007, chapter 237 requires the rules for the standardization of rates for providers of care to persons with mental retardation under the waiver to be major substantive rules.
