MILLS P	ONTP	

This bill enacts a capitated comprehensive oral health program for children under the MaineCare program. The program must provide 4 levels of oral health treatment: diagnostic, preventive and disease management services, including health promotion, risk assessment, primary prevention and disease suppression; basic restorative care; advanced restorative care; and catastrophic care, including orthodontia. The program must provide market-based fee-for-service reimbursement for dentists and other providers. The bill requires the Department of Health and Human Services to adopt rules for implementation and designates the rules as routine technical rules.
