## *Joint Standing Committee on Marine Resources*

**LD 1420**

**An Act To Make Technical Changes to the Definition of "Coastal Area" and To Aid the Implementation of the Taunton Bay Resource Management Plan**

**PUBLIC 157**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DAMON	OTP-AM	S-85

LD 1420 amends the definition of "territorial waters" in the Maine Revised Statutes, Title 12, Part 9 to extend that area from 3 nautical miles to 12 nautical miles. It directs the Department of Marine Resources and the Public Utilities Commission to review the coastal management policies contained in Title 38, chapter 19 and develop new policies and recommendations to update those provisions. LD 1420 also directs the Department of Marine Resources and the Public Utilities Commission to report their recommendations to the Joint Standing Committee on Marine Resources by January 5, 2008.

**Committee Amendment "A" (S-85)**

This committee amendment replaces the bill and instead of amending the definition of a "territorial waters" it amends the definition of "coastal area" to clarify that that area only extends out 3 nautical miles. Current law provides that whenever the Commissioner of Marine Resources adopts rules that limit the taking of one marine organism to protect another, those rules are major substantive rules. This committee amendment makes similar rules regarding the Taunton Bay Resource Management Plan routine technical instead of major substantive rules.

**Enacted Law Summary**

Public Law 2007, chapter 157 amends the definition of "coastal area" to clarify that that area only extends out 3 nautical miles. Current law provides that whenever the Commissioner of Marine Resources adopts rules that limit the taking of one marine organism to protect another, those rules are major substantive rules. Public Law 2007, chapter 157 makes similar rules regarding the Taunton Bay Resource Management Plan routine technical instead of major substantive rules.

**LD 1528**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DAMON	OTP-AM MAJ OTP-AM MAJ ONTP MIN	S-252

LD 1528 requires that dams in this State in all classifications of fresh and estuarine surface waters must provide safe and effective upstream and downstream passage for indigenous diadromous fish. Diadromous fish are those fish that migrate from fresh to sea water or sea water to fresh water and are known as anadromous and catadromous fish, such as alewives, shad and salmon. It also provides a process for any person to bring a civil action against violators of the requirements.

**Committee Amendment "A" (S-252)**

This committee amendment replaces the bill with a resolve and directs the Department of Inland Fisheries and Wildlife, the Department of Marine Resources and the Department of Environmental Protection to do the following:
