# Joint Standing Committee on Business, Research and Economic Development

The bill amends the licensing of local redemption centers by requiring the Department of Professional and Financial Regulation to consider the proximity of a proposed redemption center to existing redemption centers. The bill also limits the number of redemption centers that may be licensed in a municipality based on the population of the municipality. The population limits do not apply to existing redemption centers, certain licensed food establishments and reverse vending machines located in a redemption center and may be waived if the applicant shows a compelling need for another redemption center.

The bill also provides a procedure for an applicant denied a license to appeal that denial.

## Committee Amendment "A" (H-272)

This amendment removes the provision of the bill that adds additional rulemaking language, as the Department of Agriculture, Food and Resources already has rulemaking authority regarding the licensing and renewal of redemption centers. It also makes changes to the bill's requirements for the location and number of redemption centers in municipalities based on population. It also clarifies that eating establishments licensed by the Department of Health and Human Services are also exempt from the population size location requirements for redemption centers.
