LD 1650 An Act To Amend the Laws Concerning Genetically Engineered Plants and Seeds

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SCHATZ		

LD 1650 amends the definition of "genetically engineered" and "seed dealer" and defines "technology use agreement." The bill requires the manufacturer of a genetically engineered plant part, seed or plant sold in the State to report annually to the Commissioner of Agriculture, Food and Rural Resources the total potential amount of acreage of genetically modified crops grown from that plant part, seed or plant in the State. It provides for a process by which a manufacturer of a genetically engineered plant part, seed or plant may investigate a violation of a technology use agreement and the rights of a farmer during an investigation.

It creates a right of action as and damages for a private nuisance against a manufacturer of a genetically engineered plant part, seed or plant that cross-contaminates a person's land and limits the liability of knowing and unknowing users and possessors of a genetically engineered plant part, seed or plant.

This bill was carried over to any special or regular session of the 123rd Legislature by Joint Order, H.P. 1369.

LD 1668 establishes a fee for a permit issued to allow a fire within the Saco River Corridor. It establishes the Saco River Preservation Fund and requires the Director of the Bureau of Forestry within the Department of Conservation to adopt rules to establish a process for reimbursing municipalities from the fund. Costs incurred in providing law enforcement, sanitation and emergency services within the Saco River Corridor are eligible for reimbursement from the fund along with costs to purchase equipment specifically to provide those services. See the bill summary for LD 1034 Resolve, To Preserve the Saco River.
