mentally ill or does not pose a likelihood of serious harm. Instead, it provides that a hearing must be held on every application to give others a chance to testify, even if the examiners do not support the application.

Committee Amendment "A" (S-266)

This amendment:

1. Removes the language concerning a certification outside the hospital emergency room permitting a physician's assistant, certified psychiatric clinical nurse specialist or nurse practitioner, as well as a licensed physician or licensed clinical psychologist, to make the certification;
2. Removes the requirement of a hearing in every involuntary commitment proceeding; and
3. Reduces the notice period for continued involuntary hospitalization from 30 days to 21 days.

Enacted Law Summary

Public Law 2007, chapter 319 updates the language in the laws on involuntary mental health commitment. It shortens the notice requirements for continued involuntary commitment from 30 to 21 days. It clarifies that a judicial officer can review a faxed certification. It clarifies that a patient may be held in any hospital for up to 18 hours while a placement and judicial endorsement are being sought. It amends the law so that the person seeking a patient's admission, rather than the law enforcement officer or ambulance service transporting the patient, is responsible for ensuring that the certification is judicially endorsed. It clarifies that a community hospital may see a person in the emergency room and decide that the person needs to be involuntarily committed to a psychiatric hospital to receive the best care for that person. It clarifies that both kinds of hospitals are involved in this commitment process.

Committee Report

OTP-AM

Amendments Adopted

H-358

This bill defines "developmental disability" and requires the Department of Health and Human Services to change the criteria that it currently uses to determine the eligibility of persons with a developmental disability for services. It requires the department to use methods that are not based on an intelligence quotient test and include criteria for the assessment of functional abilities. It requires the department to accomplish this goal in a manner that is cost neutral.

Committee Amendment "A" (H-358)

This amendment replaces the bill. The amendment changes the bill to a resolve. It directs the Department of Health and Human Services to convene a working group of stakeholders and other interested parties to undertake a review of current statutes, rules and policies regarding services, definitions, limitations, eligibility and levels of care for adults with mental retardation, pervasive developmental disorders and other cognitive and developmental disorders and to report to the Joint Standing Committee on Health and Human Services. It authorizes the Joint Standing Committee on Health and Human Services to submit legislation related to the recommendations of the working group to the Second Regular Session of the 123rd Legislature.
