STATE OF MAINE

123RD LEGISLATURE

FIRST REGULAR SESSION

LEGISLATIVE DIGEST OF BILL SUMMARIES AND ENACTED LAWS

This *Legislative Digest of Bill Summaries and Enacted Laws* summarizes all bills and adopted amendments and all laws enacted or finally passed during the First Regular Session of the 123rd Maine Legislature, which was in session from December 6, 2006 to June 21, 2007.

The *Digest* is arranged alphabetically by committee, and within each committee by LD number. The committee report(s), prime sponsor and lead co-sponsor(s), if designated, are listed below each bill title. All adopted amendments are summarized and listed by paper number. A subject index is included with each committee. The appendices include a summary of relevant session statistics, an index of all bills by LD number and an index of enacted laws by law type and chapter number.

Final action on each bill is noted to the right of the bill title. The abbreviations used for various categories of final action are as follows:

Joint Standing Committee on Utilities and Energy

annual revenues greater than \$50,000,000. Specifically, the amendment:

1. Limits the application of these additional criteria for approval to transactions that would result in a change of ownership and control of the public utility;
2. Changes the criteria for approval relating to benefits to ratepayers from a standard of "short-term and long-term economic benefits" to a standard of "net benefits"; and
3. Adds a provision authorizing the Public Utilities Commission to impose conditions on a reorganization that is subject to the additional standards to ensure that the transaction will satisfy those standards.

The Joint Standing Committee on Utilities and Energy, by letter dated 6/14/07, requested that the Public Utilities Commission, in its review of the proposed merger and reorganization of Verizon and FairPoint Communications, give due consideration to several specific issues relating to the stated benefits of the merger and economic development issues for the State.

LD 1918 **An Act To Ensure Adequate Funding for the Oversight of Spent Nuclear Fuel Storage in Maine**

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
BERRY		

Current law establishes an assessment on a licensee operating an interim spent nuclear fuel storage facility in this State. This assessment is scheduled to decrease from \$360,000 per year in calendar year 2007 to \$296,667 in calendar year 2008 and to \$170,000 beginning in 2009 continuing at that amount until all spent nuclear fuel is removed from the State. This bill eliminates the reductions in the assessment that exist in current law and establishes the assessment amount in years 2008 and beyond at a level of \$360,000 indexed to the rate of inflation using the Consumer Price Index. This bill also imposes an additional assessment of \$500,000 beginning in August 15, 2007 and every 5 years thereafter, also indexed to the rate of inflation, to pay for costs associated with the replacement of depreciated or obsolete capital equipment. Once the spent nuclear fuel is removed from the facility, these additional payments are no longer required.

This bill was carried over by H.P. 1369 to any special or regular session of the 123rd Legislature.

LD 1920 **An Act To Stimulate Demand for Renewable Energy**

PUBLIC 403

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
	OTP MAJ ONTP MIN	H-516 PIEH

Current law establishes as a policy of the State the goal of increasing the share of new renewable capacity resources as a percentage of the total capacity resources in this State by 10% by 2017. This bill implements that policy goal by establishing portfolio requirements for new renewable capacity resources, beginning at 1% for calendar year 2008 and increasing by one percentage point per year, ending at 10% in 2017.

The bill allows competitive electricity providers to meet the portfolio requirements for new renewable capacity resources through the use of renewable energy credits or an alternative compliance payment to be set by the Public Utilities Commission. The bill allows the commission to suspend increases in the portfolio requirements for new renewable capacity resources if it finds that investment in new renewable capacity resources is insufficient and the
