**Resolve, Directing the Public Utilities Commission and the Public Advocate To Advocate for the Adoption and Implementation of Demand-side Management Programs**

**RESOLVE 177  
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
PINGREE	OTP-AM	H-767

This bill defines "compliant transmission and distribution utility" and "noncompliant transmission and distribution utility" and places certain limitations and restrictions on noncompliant transmission and distribution utilities. The bill also amends the standards for the approval of transmission projects by the Public Utilities Commission; requires the Public Utilities Commission to advocate for and, if possible, require the development and implementation of a demand-side management program; and requires the commission to develop a proposal for a program that would require all new commercial and residential construction to have time-of-use electric meters installed. Finally, the bill directs the Governor's Office of Energy Independence and Security to convene a working group to examine barriers to and incentives for installation of systems to conserve energy through the reuse of waste heat.

### Committee Amendment "A" (H-767)

This amendment replaces the bill with a resolve that directs the Public Utilities Commission and the Public Advocate to participate in regional and federal activities to advocate for and facilitate and support the development, adoption and implementation of demand-side management programs.

### Enacted Law Summary
