## An Act To Clarify the Qualifications of Installers under the Solar Energy Rebate Program

**PUBLIC 493  
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MILLER	OTP-AM	H-691

This bill makes changes to the solar energy rebate program in relation to the installation of solar thermal systems that heat water. The bill amends the statutory definition of "solar thermal system" and requires the Public Utilities Commission to make corresponding changes to the definition in rules. The bill also requires the commission to make additional changes to the rules governing the solar energy rebate program to:

1. Amend the definition of "qualified solar thermal water system installer" in order to allow certain licensed technicians other than licensed plumbers to be qualified installers;
2. Require a licensed plumber to install or sign off on a solar thermal water system installed by a qualified installer if it is designed to heat potable water; and
3. Require that an application for a solar thermal system rebate be accompanied by a copy of a certificate of competency issued by the commission to the qualified installer and, if the system incorporates the heating of potable water, also include a copy of the master plumber's license or license number.

### Committee Amendment "A" (H-691)

This amendment replaces the bill. The amendment makes necessary changes to the laws governing the solar energy rebate program to change the qualifications of solar thermal system installers to be consistent with the intent of the bill. The amendment also directs the Public Utilities Commission to make several corresponding changes to its rules governing the solar energy rebate program.

### Enacted Law Summary

Public Law 2007, chapter 493 changes the qualification requirements for installers of solar thermal water systems under the solar energy rebate program in order to allow certain licensed technicians in addition to master plumbers to be qualified installers of these systems. The law also amends the rebate requirements for a solar thermal system designed to heat water to require that it be installed by a qualified installer and, if designed to heat potable water, that it be installed by a qualified installer who is a master plumber or who is working in conjunction with a master plumber. The law directs the Public Utilities Commission to make corresponding changes to its rules governing the solar energy rebate program.

Public Law 2007, chapter 493 was enacted as an emergency measure effective March 12, 2008.

## LD 2076 An Act To Amend the Charter of the Norway Water District

**P & S 32  
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MILLETT	OTP	

This bill amends the charter of the Norway Water District in several ways. It clarifies the territorial limits of the Norway Water District. It changes the amount a trustee is entitled to receive for serving as trustee from \$50 to \$400 a year to reflect the current rate of compensation. The bill also amends the charter by changing the way the district sets its rates and authorizes the district to enter into contracts with the Oxford Water District and to provide water service to the residents on Alpine Street in South Paris who are customers of the Norway Water District.
