This bill prohibits the use of a handheld cellular telephone and a handheld electronic device while operating a motor vehicle. The bill clarifies that law enforcement officers, corrections officers, firefighters, drivers of authorized emergency vehicles, holders of commercial driver's licenses, physicians, municipal public works personnel, Maine Turnpike Authority personnel and state transportation personnel, including all employees and contractors of the Department of Transportation, may use handheld cellular telephones while driving within the scope of their employment. The bill makes the offense a traffic infraction.

Committee Amendment "A" (H-31)

This amendment, which is the minority report of the Joint Standing Committee on Transportation, expands the list of those exempt from the prohibition against using a handheld cellular telephone and a handheld electronic device while operating a motor vehicle to include personnel of a public utility within the scope of their employment.

The amendment also provides that the definition of "handheld electronic device" does not include a radio licensed by the Federal Communications Commission, including, but not limited to, a citizen band or amateur radio, a change that has the effect of allowing persons to use radios while driving. The amendment prohibits the use of a radio while driving in an area designated by the Department of Transportation or the Maine Turnpike Authority as a construction zone but allows workers within construction zones to continue to use handheld cellular telephones, handheld electronic devices or radios licensed by the Federal Communications Commission if it is within the scope of their employment.

The amendment also adds an appropriations and allocations section.
