Enacted Law Summary

Public Law 2009, chapter 315 clarifies the responsibility of private culvert replacement and repair on a state right-of-way. When the department determines a culvert replacement is required for an existing driveway, entrance or approach located within the highway limits as part of a capital highway or ditching project or emergency response effort where the culvert replacement is required to reestablish access to an abutting property, the department is responsible for the cost of the replacement. When the department determines a culvert replacement is not required for an existing driveway, entrance or approach located within the highway limits, the abutter is responsible for the cost of any replacement.

The law also clarifies the definition of "interstate highway," "interstate system" and "interstate highway system."
