LD 187 An Act To Require a Test for Operating Under the Influence for a Driver Involved in an Accident That Caused Bodily Injury

**ACCEPTED ONTP
REPORT**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SCHATZ	ONTP MAJ OTP-AM MIN	

Current law requires that the operator of a motor vehicle involved in an accident that results in or is likely to result in death to submit to a test to determine blood alcohol level or drug concentration. The investigating law enforcement officer is required to cause the test to be administered but has the discretion to determine the form of the test. This bill requires that if there is probable cause to believe that "apparent serious bodily injury" has occurred or will occur as a result of an accident, any vehicle operator involved in the accident must submit to a chemical test used to determine blood-alcohol level or drug concentration by analysis of blood, breath or urine.

The bill also amends the law regarding an operator's right to hearing on an administrative license suspension by the Secretary of State by adding the operator involved in an accident where there is apparent serious bodily injury as proposed by the bill. For purposes of this bill, "serious bodily injury" has the same meaning as found in Title 17-A, §2, sub-§23; "serious bodily injury" means a bodily injury which creates a substantial risk of death or which causes serious, permanent disfigurement or loss or substantial impairment of the function of any bodily member or organ, or extended convalescence necessary for recovery of physical health.

Committee Amendment "A" (H-175)

This amendment is the minority report. The amendment specifies that for purposes of a motor vehicle accident, if there is probable cause to believe that a serious bodily injury has occurred or will occur as a result of the accident, an operator of a motor vehicle involved in the motor vehicle accident who the law enforcement officer has probable cause to believe caused the accident shall submit to a chemical test to determine blood-alcohol level or drug concentration in the same manner as for OUI. The amendment also clarifies that for purposes of a motor vehicle accident in which there is probable cause to believe that a death has or will occur as a result of the accident, each operator, whether living or deceased, of a motor vehicle involved in that motor vehicle accident must have a chemical test. This amendment also adds an appropriations and allocations section. This amendment was not adopted.
