LD 183 An Act To Amend the Laws Concerning Genetically Engineered Plants and Seeds

LEAVE TO WITHDRAW

| <u>Sponsor(s)</u> | <u>Committee Report</u> | <u>Amendments Adopted</u> |
|-------------------|-------------------------|---------------------------|
| SCHATZ | LTW | |

This bill proposes amending the definitions of "genetically engineered" and "technology use agreement." It requires the manufacturer of a genetically engineered plant part, seed or plant sold in the State to report annually to the Commissioner of Agriculture, Food and Rural Resources the total potential amount of acreage of genetically modified crops grown from that plant part, seed or plant in the State. It repeals the section of law pertaining to de minimus possession and provides a process by which a manufacturer of a genetically engineered plant part, seed or plant may investigate a suspected violation of a technology use agreement and the rights of a farmer during an investigation. It creates a right of action as and damages for a private nuisance against a manufacturer of a genetically engineered plant part, seed or plant that cross-contaminates a person's land and limits the liability of knowing and unknowing users and possessors of a genetically engineered plant part, seed or plant.
