The site location of development laws currently require state review of any proposed structure that would result in a total project occupying a ground area in excess of 3 acres. This 3-acre threshold for review includes areas that are stripped or graded and not revegetated within one calendar year. This bill extends from one year to 10 years the amount of time a developer has to revegetate stripped or graded areas before those areas can be included in calculating the 3-acre site law review threshold.
